

Urgent IPRA Records & Preservation Request – Sexual Assault Incident 2026-10128

Fri, Aug 14, 2026 at 5:47 PM

To: Calandra Elliott <Calandra.Elliott@co.mckinley.**nm**.us>Cc: Miguel Bittony <Miguel.Bittony@co.mckinley.**nm**.us>, Eric Jim <Eric.Jim@co.mckinley.**nm**.us>, MCSO Records <mcsorecords@co.mckinley.**nm**.us>

Calandra,

You informed me in writing that **“Your case has been sent to the District Attorney’s Office.”**

I have now spoken directly with the District Attorney’s Office. They conducted a thorough search using **Incident 2026-10128, my name, the suspect’s “name”, and their available intake and case records.** They confirmed that they have **nothing**: no referral, no intake, no case log, and no record of receiving this case from MCSO.

I have included my recording of that call. The recording is crystal clear and speaks for itself: the District Attorney’s Office confirmed that it has no record of this case having been transmitted by MCSO.

Recording:

This directly contradicts what you told me in writing.

Please answer the following directly:

1. **Was Incident 2026-10128 actually transmitted to the District Attorney’s Office?**
2. If yes, provide the **date and time of transmission, method of transmission, recipient, and all documentation showing the referral was sent**, including any transmittal email, referral form, submission confirmation, receipt, audit log, or case-management entry.
3. If it was not transmitted, explain **why I was told in writing that it had been sent and that the District Attorney’s Office would be handling my case going forward.**
4. If the referral remains pending, explain **why it has not been completed and when it will actually be transmitted.**

This email also constitutes a request under the **New Mexico** Inspection of Public Records Act for **all records concerning the referral or purported referral of Incident 2026-10128 to the District Attorney’s Office**, including emails, referral forms,

transmission records, submission receipts, audit logs, case-management entries, and internal communications concerning whether, when, or how the case was referred.

Please preserve all such records.

NMSA § 29-1-1 requires sheriffs and their deputies to investigate reported criminal violations and to **cooperate with and assist the District Attorney in all reasonable ways**. I was specifically directed by MCSO to contact the District Attorney because I was told that office was now handling my case. I did exactly that, only to discover that **the District Attorney has no case to handle because their office has received nothing from MCSO**.

Please do not direct me back to the District Attorney's Office. **They have already checked. They have nothing.**

I need MCSO to explain this discrepancy and provide documentary proof of exactly what happened to the referral for Incident 2026-10128.
